PROFESSIONAL SUMMARY

Python Developer and Instructor with strong programming expertise in Python, problem-solving, and analytical skills. Experienced in backend development and RESTful API design, with a solid understanding of machine learning fundamentals. Familiar with embeddings, LLM-based applications, and RAG workflows, and quick to adapt to new technologies. Hands-on with GitHub, SQL, and cloud-based development environments.

WORK EXPERIENCE

Aptitude & Python Instructor — *NxtWave* | Mar 2025 – Present

- Conduct Python and problem-solving training sessions with real-world examples.
- Create coding exercises and mentor students for technical interviews.

Associate Customer Support — *Tech Mahindra* | Oct 2024 – Mar 2025

- Provided technical troubleshooting and backend issue resolution.
- Worked with databases and ensured high customer satisfaction.

Software Developer Intern — *PearlThoughts* | Apr 2024 – Jun 2024

- Built RESTful backend services using TypeScript and SQL databases.
 - Used GitHub for version control and collaborated in agile teams.
-

PROJECTS

- **OutPatient Appointment System API**
 - Developed REST APIs using Python/Django concepts with JWT authentication.
 - Implemented role-based access control and SQL data handling.
 - **Food Munch (Responsive Website)**
 - Created a responsive UI using HTML, CSS, and Bootstrap.
 - **Todos Application**
 - Built a CRUD-based task manager with local storage support.
-

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
 - **Backend:** Django, Node.js
 - **Databases:** SQL, PostgreSQL
 - **AI & ML:** ML fundamentals, embeddings, LLM concepts, LangChain, RAG
 - **Tools:** GitHub, Git, REST APIs, Cloud platforms
 - **Frontend:** HTML, CSS
-

CERTIFICATIONS

- Python Developer Certificate | 2023
 - Introduction to SQL | 2023
 - Responsive & Static Website Development | 2023
-

EDUCATIONCMR Technical Campus, Hyderabad

B.Tech (Civil Engineering) | 2018 – 2022
