PROFESSIONAL SUMMARY

Python Developer and Full Stack Engineer with expertise in Python, Django, React, and PostgreSQL. Experienced in building scalable web applications, REST APIs, and responsive user interfaces through end-to-end development of recruitment and real estate management platforms. Strong foundation in problem-solving, backend development, and modern software engineering practices.

WORK EXPERIENCE

Aptitude & Python Instructor — *NxtWave* | Mar 2025 – June 2025

- Conduct Python and problem-solving training sessions with real-world examples.
- Create coding exercises and mentor students for technical interviews.

Associate Customer Support — *Tech Mahindra* | Oct 2024 – Mar 2025

- Provided technical troubleshooting and backend issue resolution.
- Worked with databases and ensured high customer satisfaction.

Software Developer Intern — *PearlThoughts* | Apr 2024 – Jun 2024

- Built RESTful backend services using TypeScript and SQL databases.
- Used GitHub for version control and collaborated in agile teams.

PROJECTS

[CareerConnect](#) (Django, PostgreSQL)

- Developed a full-stack recruitment platform using Django and PostgreSQL to streamline the hiring process for recruiters and job seekers.
- Implemented role-based authentication, job posting management, application tracking, and recruiter dashboards.
- Designed scalable database models and responsive user interfaces to enhance recruitment workflow efficiency.

[Real Estate Hub](#) (Django, PostgreSQL)

- Built a property listing platform enabling users to browse, search, and manage real estate properties through a responsive web interface.
- Developed secure authentication, property management modules, and advanced search and filtering functionality.
- Integrated PostgreSQL database operations to efficiently manage property listings and user data.

[Portfolio](#) (React, Tailwind CSS, Vite)

- Designed and developed a responsive personal portfolio website using React, Tailwind CSS, and Vite.
- Showcased projects, technical skills, professional experience, and contact information through an interactive user interface.
- Deployed the application on Vercel and implemented modern UI/UX practices to ensure seamless accessibility across devices.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Backend:** Django, Node.js(Intermediate)
- **Databases:** SQL, PostgreSQL
- **Tools:** GitHub, Git, REST APIs, Cloud platforms
- **Frontend:** HTML, CSS, React.JS(Intermediate)

CERTIFICATIONS

- Python Developer Certificate | 2023
- Introduction to SQL | 2023
- Responsive & Static Website Development | 2023

EDUCATION

CMR Technical Campus, Hyderabad

B.Tech (Civil Engineering) | 2018 – 2022
